

Organicore

Protecting the Planet and your Phone

We've improved our eco-friendly Organicore Collection, featuring material made from plants, by adding Impact Strut technology, to create a case that delivers 8 ft. of drop protection. Organicore delivers 25% better protection than before while remaining 100% compostable. What does 100% compostable mean? That every Organicore product is guaranteed to break down completely in a proper compostable environment, leaving only good stuff behind.

Key Selling Points

- 8 Ft. Drop protection
- 100% Compostable plant-based protection
- Impact Strut protection tech reduces impact force
- Raised-edge bezel protects screen
- Wireless charging compatible
- 5G compatible
- Lifetime guarantee
