Plug in, Power On

With a DisplayPort enabled Type-C port, **Mobile Pixels DUEX Max DS** dual laptop monitor allows a plug-n-play experience with high-speed video transmission packed into a single cable. For laptop without Type C ports, it can also be used through HDMI port.

Large 14.1" Full HD Display

Mobile Pixels DUEX Max DS features a larger display than other DUEX Series monitors. It easily slides out to either side of your laptop. You'll enjoy the same 1080p resolution but with an 85% screen-to-body ratio so everything you see is crisp and clear.
