Technical specifications

Product description
85 dB alarm, high-performance electrochemical sensor

Product dimensions
100 x 100 x 23 mm /
3.9 x 3.9 x 0.9 in

Power
Built-in 10-year battery

Pack contents
1 Smart Carbon Monoxide Alarm, 1 mounting kit

Requirements
High-speed wireless internet connection needed. Public hotspots not supported.

Connectivity specifications
Wi-Fi 802.11 b/g/n (2.4 GHz), Open/WEP/WPA/WPA2-Personal, Bluetooth Low Energy (BLE)

Free app
No subscription required
App available on App Store / Google Play

Installation advice

It is recommended that you install a Smart Carbon Monoxide Alarm on each floor, in rooms with a fuel-burning appliance (boiler, fireplace, wood-burning stove, gas cooker), and rooms with a heating flue (even if it is a boxed flue).

For maximum protection, you can install an extra Smart Carbon Monoxide Alarm in the most used living areas and every bedroom.

✔✔ **Highly recommended**

✔ **For maximum protection**

Smart **Carbon Monoxide Alarm**

Be alerted when carbon monoxide is detected in your home, wherever you are

Security Now ✕

Warning!
Living room: Carbon monoxide detected

Monitors the carbon monoxide levels emitted by your fuel-burning appliances (boiler, fireplace, etc.) in real time.

85-decibel alarm plus notification via your smartphone if carbon monoxide is detected in your home.

The 10-year* battery lasts the entire lifetime of the Carbon Monoxide Alarm.

The Self-Test feature checks the Carbon Monoxide Alarm is functioning correctly and alerts you if necessary.

Your Smart Carbon Monoxide Alarm is standalone, so you don't need to buy a smart home hub.

*Life span for typical use. The battery's life span may vary based on the use of the Smart Carbon Monoxide Alarm. For further information, please go to https://netatmo.com/usage/nco
