

Desk Laptop Stand Wood

Desk Laptop Stand Wood

About The Product

Elevate your workspace with a one-of-a-kind natural wood grain finish that brings effortless character to every desk. Combined with an adjustable premium metal design, it raises your laptop or tablet up to 60 cm for greater comfort, improved ergonomics, and a modern setup built for creativity.

Why have we created Desk Laptop Stand?

We've all been through the strained shoulders, tight necks, and the books, boxes and other makeshift stands we've used to try to solve the problem. While we've aced on-the-go solutions with the lightweight designs of Rise and Fold, we wanted a more robust solution for our home base. Desk Laptop Stand is a weighted stand designed specially for your workspace with an adjustable height to tailor it to you and your monitor, a base tray for desk organization, and a modern finish to complement the rest of your setup.

Thoughtfully designed to fit your lifestyle

- Elevate your laptop or tablet for a more comfortable workspace & ergonomic posture
- Adjustable, foldable design raises your device up to 60cm to optimize viewing & relieve neck strain
- Weighted base, nonslip silicone grip & strong hinges keep the stand stable
- Base tray with pen holder keeps your desk neat & organized
- One-of-a-kind natural wood grain finish adds effortless character to every workspace
- Universally compatible with all laptops & tablets
