

Concept Series Thrones

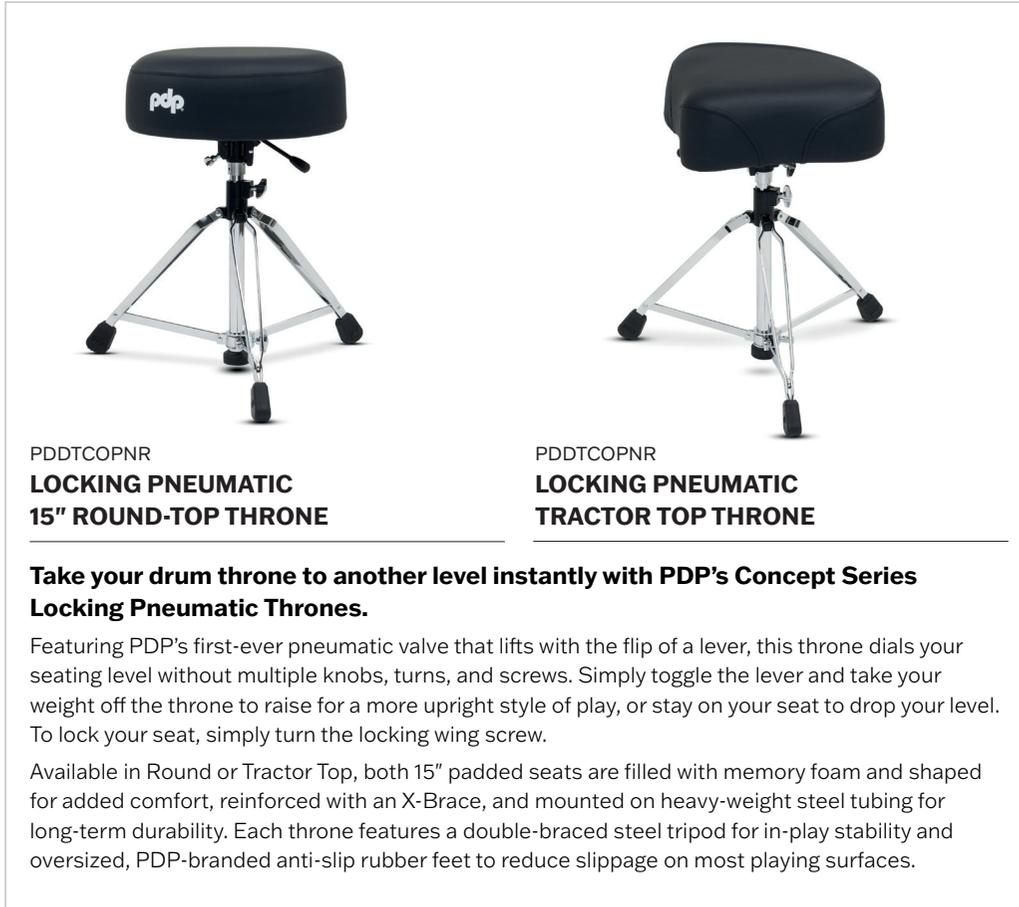

Elevate your drumming experience.

PDDTCOR
ROUND TOP THRONE

Keeps your setup secure with classic swivel height adjustment and a robust locking nut.

Sit comfortably on the 15" padded round seat, filled with memory foam and reinforced by an X-Brace for lasting support. The heavy-duty steel tubing and double-braced tripod base provide long-term stability, while oversized, anti-slip rubber feet with PDP branding help prevent movement on nearly any surface.

PDDTCOPNR
**LOCKING PNEUMATIC
15" ROUND-TOP THRONE**

PDDTCOPNR
**LOCKING PNEUMATIC
TRACTOR TOP THRONE**

Take your drum throne to another level instantly with PDP's Concept Series Locking Pneumatic Thrones.

Featuring PDP's first-ever pneumatic valve that lifts with the flip of a lever, this throne dials your seating level without multiple knobs, turns, and screws. Simply toggle the lever and take your weight off the throne to raise for a more upright style of play, or stay on your seat to drop your level. To lock your seat, simply turn the locking wing screw.

Available in Round or Tractor Top, both 15" padded seats are filled with memory foam and shaped for added comfort, reinforced with an X-Brace, and mounted on heavy-weight steel tubing for long-term durability. Each throne features a double-braced steel tripod for in-play stability and oversized, PDP-branded anti-slip rubber feet to reduce slippage on most playing surfaces.
