# The Kraken Snare Drum

3.5"x13" Chrome-over-Steel Piccolo Snare Drum

Unleash the fury with the PDP Kraken Snare Drum.

**This beast doesn't just add crack to your backbeat, it delivers a thunderous assault whether it's your primary or side snare.**

Created from a 1mm rolled chrome-over-steel shell, it delivers a piercing, razor-sharp attack that cuts through the mix like a sonic dagger. The 1.5mm triple-flange hoops ensure your rimshots hit with lethal precision.

Equipped with a sleek throw-off for lightning-fast snare engagement, you can fine-tune your attack with DW True-Pitch tuning rods and an included Remo head.

This drum is built to dominate, whether you're tearing through EDM, crushing samples, or obliterating metal and punk. Release the Kraken into your drum kit and let chaos reign.
