

**AIRA**  

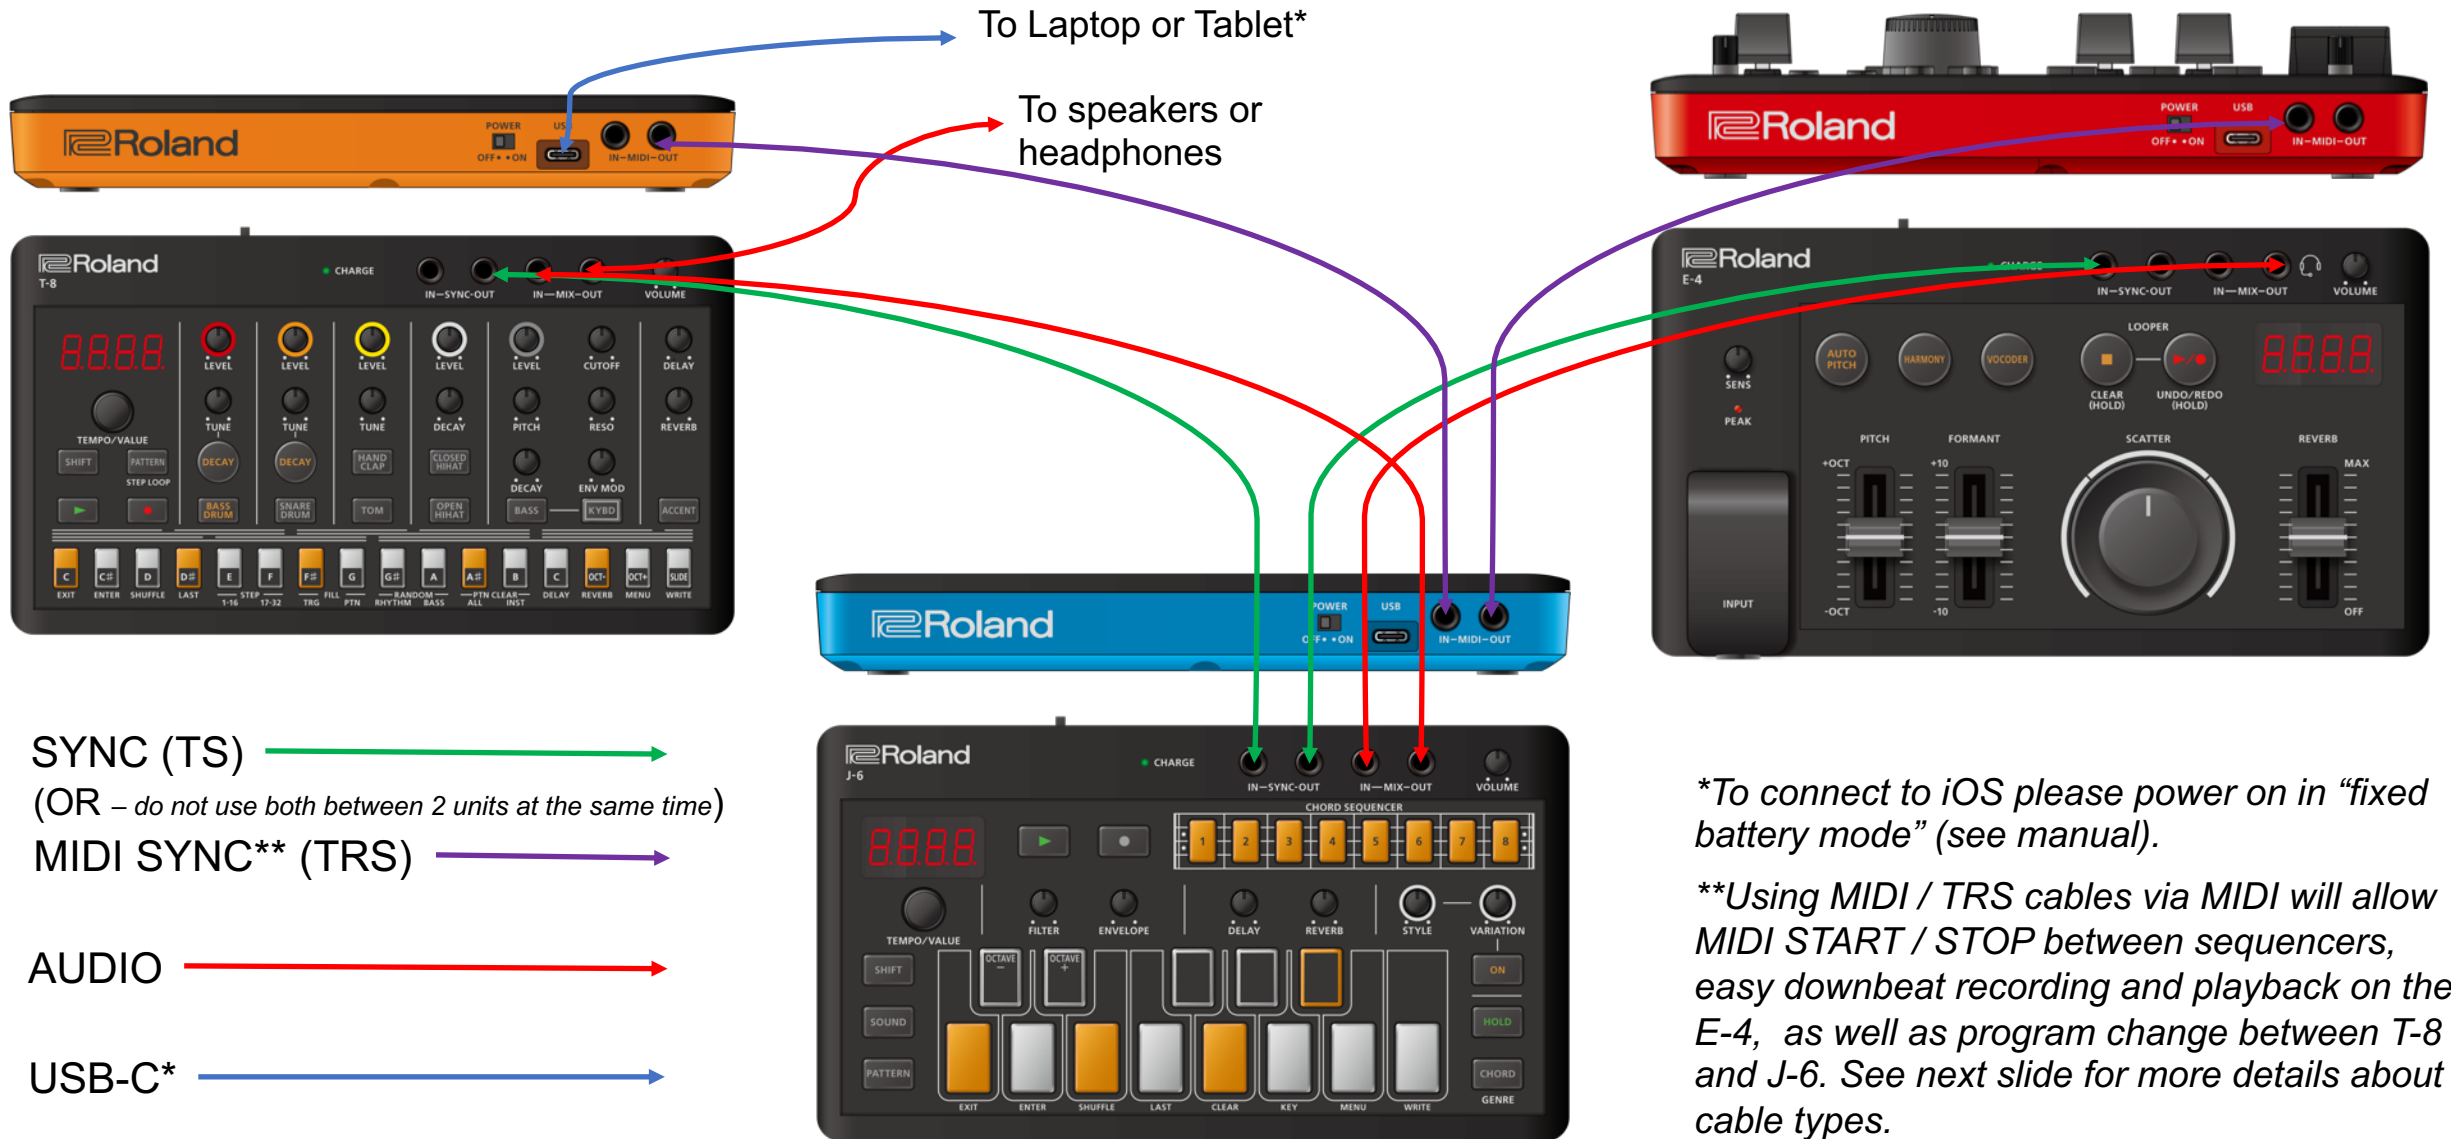

---

**COMPACT**

**CONNECTIVITY GUIDE**

# AUDIO / SYNC SET UP

While each AIRA Compact instrument provides a unique experience, synchronizing units together using SYNC or MIDI can produce a wider range of creative results and fuller performance.

\*To connect to iOS please power on in “fixed battery mode” (see manual).

\*\*Using MIDI / TRS cables via MIDI will allow MIDI START / STOP between sequencers, easy downbeat recording and playback on the E-4, as well as program change between T-8 and J-6. See next slide for more details about cable types.

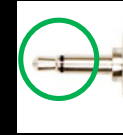

**T-8**  
Beat  
Machine

**J-6**  
Chord  
Synth

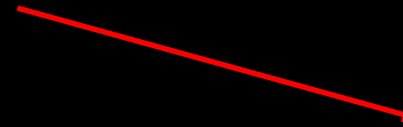

**E-4**  
Voice  
Tweaker

## CABLES

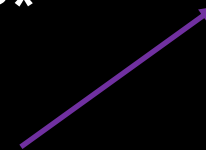

**Sync IN/OUT**  
TS 3.5mm

**AUDIO (MIX IN/OUT)**  
TRS 3.5mm

**MIDI TRS "TYPE-A"\***  
TRS 3.5mm  
to TRS 3.5mm  
(same as audio TRS above)

**OR**  
to 5-pin DIN MIDI Cable
