SP-404MKII
VERSION 3 UPDATE

Powerful New Features at No Extra Cost

EMBARGO/AVAILABLE 10 MARCH 2023 • 00:01 CET / 01:00 GMT

Improved Performance, Workflow Enhancements, and Powerful New Features for DJs and Dance Music Producers.

Since its release in 2021, the next-generation SP-404MKII has been the instrument of choice for performance-based beatmakers and creative musicians everywhere.

Version 3 offers improved performance and a host of new workflow features developed with feedback from the wide-ranging SP artist community. The free update also includes many pattern sequencer and DJ Mode enhancements that make the SP-404MKII an even more powerful tool for live performers and dance music producers.

SP-404MKII Version 3 Features

Perform with Multitrack Files from DAW Sessions and Other Projects

The SP-404MKII sequencer offers improved stability for playing multiple long audio files in perfect sync, enabling users to perform with tracks created in music production software.

Optimized MIDI Sync

Improved clock timing and adjustable delay on the MIDI clock output for tight sync with external instruments.

Expanded Motion Recording

Motion recording is now available for effects parameters.

Pad Mute and Pad Mute Automation

Easily mute/unmute samples during performances and capture mute actions in sequences.

One-Shot Playback

Allows users to perform with long, evolving samples while jamming with short loops underneath.

Convert Patterns to Samples

Convert any pattern into a sample with the press of a button, transforming complex programming into manageable loops for quick song building.

Expanded DJ Mode

Many new DJ Mode enhancements include the ability to manipulate eight cue points per sample, adjust fader curves, sync external MIDI instruments, assign time stretch, and more.

Additional Features

Version 3 also includes many other workflow enhancements, including quantize after recording, finer tempo setting range, default MFX setups, and more.

SP-404MKII App

The latest version of the companion editor/librarian for the SP-404MKII features greatly increased import/export speed and AU3/VST3 plug-in support for using the app within music production software on Mac and Windows computers.

Your customers can now update their SP-404MKII with Version 3 now. **Be sure to update your demo stock and product listings.**
