

MINI NVME SSD ENCLOSURE

FASTER SPEEDS

Unlock the full potential of high-speed storage with the Satechi Mini NVMe SSD Enclosure. Optimized to read NVMe solid-state drives with speeds up to 10Gbps, the Enclosure harnesses Gen 2 USB-C technology to transfer files significantly faster than traditional SATA SSDs. It boasts interchangeable storage, giving users the flexibility to switch between multiple SSDs depending on their needs. It also supports Apple ProRes Log, a high-quality video format that enhances shooting and editing capabilities. Small and compact, the Enclosure is perfect for on-the-go use and is crafted with air vents to ensure optimal cooling and performance. Its premium design features a sleek aluminum enclosure with chamfered edges, scratch-resistant tempered glass, a braided cable with a durable plastic cover, and a convenient lanyard.

Made in China.
