

StayGo USB-C Hub

USB-C Hub with 1-meter desktop cable + stowable travel cable

All the connections without the clutter.

StayGo has all of the ports missing from your new M1 iMac, including an SD card slot, USB-A ports and an Ethernet connection. The extended StayGo cable lets you keep the hub hidden and lets you pull the hub close to connect a USB-A flash drive or pop a camera card into the SD slot to edit photos from your latest shoot. Optimized for the new generation of iMac, a new matte white finish matches the secondary color of iMacs and blends beautifully with white desks. Keep your favorite accessories connected to your colorful new iMac with StayGo.

Key facts:

- Connect devices to iMac at your desk with easy access
- 1-meter cable keeps connections out of sight, creating a neat and tidy workspace
- Additional compact travel cord conveniently stores directly inside StayGo for use with MacBook or iPad
- Available ports: 3 USB-A, 4K HDMI, Ethernet, USB-C, SD, Micro-SD
