

BackPack

Innovative storage just for iMac and Studio Display.

BackPack, a one-of-a-kind custom shelf, has arrived.

Designed exclusively for Apple Studio Display and the colorful iMac, the sleek aluminum BackPack shelf quickly and seamlessly attaches to the back your iMac or Studio Display stand. Use BackPack to declutter your desk by storing & elevating portable hard drives and USB-C hubs behind your display, on top of this sturdy vented shelf. BackPack even includes a Peripheral Strap and ties to secure your gear on top & underneath the sturdy BackPack shelf. If your iMac or Studio Display faces co-workers or customers, use the matte white shelf to display artwork, awards, or a welcome sign. Tidy up your workspace with an accessory so integrated into the design of your device, it looks like it came with it.

Why BackPack for your iMac or Studio Display?

- Hide messy hard drives, cables, and dongles behind your display
- Store USB-C hubs + cables right next to your connections
- Display awards, business cards, or retail signage facing customers
- Includes watchband-quality peripheral strap for top or bottom storage
