

Typhur Grill Brush Bot

32 kgf·cm of Scrubbing Torque

Powered by a high-torque motor with up to 90W of power, it tackles stubborn grease and baked-on residue with ease.

Steam-Assisted Cleaning

Simply wet the roller head and use it on a hot grill. Steam helps loosen grease for faster, easier cleaning.

Bristle-Free Safety

The high-friction roller removes grease without loose metal bristles that may be left behind on the grill.

Built for Every Grill

Compatible with gas, charcoal, pellet, and electric grills, as well as stainless-steel, cast-iron, and porcelain-coated grates.

Preheat. Dip. Scrub. Repeat.

Preheat the grill to approximately 200°C, wet the roller head, and scrub away residue with steam-assisted power.
